

Position: Fundraising Intern

Fundraising is a vital part of any non-profit organization. In-Sight Collaborative relies heavily on crowd funding to support our projects and we use various strategies to bring that funding in. Ethical fundraising campaigns that preserve the privacy and dignity of those affected by forced displacement is one of our top priorities. We strongly oppose campaigns that exploit people's vulnerability or perpetuate power dynamics between contributors to campaigns and those receiving support.

The accompaniment model promotes an attitude of collaboration and horizontal support versus top-down or even bottom-up approaches. We apply this model to all of our interventions, including fundraising. This internship position will teach the participant about an entirely new method of generating funds and support. The intern will play a direct role in strategy development for campaigns and will work with the entire In-Sight Collaborative team and staff.

Upon successful completion of the internship, all interns will receive a letter of recommendation from In-Sight Collaborative president Madi Williamson and will be able to include all projects, campaigns, and material that they contributed to or created in their professional portfolios. These internships are designed to be part-time and done in tandem with work, school, and other life commitments. Our team at In-Sight is flexible, we only ask for consistency and adherence to the schedule that is relevant to your internship position.

Duration: August 24th- December 31st, 2020

Hourly Requirements: 5-10 hours per week, logged on Clockify

Pre-requisites:

- English proficiency
- Preferably residence in a country where Facebook fundraising, Charity GoFundMe and PayPal are functional and accessible

The intern will gain the following skills:

- Fundraising campaign strategy
- Use of multiple digital fundraising platforms
 - Facebook
 - CharityGoFundMe
 - PayPal
- How to raise funds for causes related to forced displacement with an ethical and respectful narrative
- How to design fundraising campaigns that support the accompaniment model and are driven by the needs of the affected population, not the contributors
- Experience working with In-Sight Collaborative's diverse teams including the affected populations in Lebanon and Greece

Responsibilities of the Intern:

- Assist the In-Sight team with campaign design and strategies
- Grant Writing
- Manage fundraising pages on social media and web platforms
 - Updates (photos and fund tracking)
 - Design social media posts using Canva
 - Newsletter updates
